Thank you Mindy for this EFED memo.

Julia, I've added PRD's combination proposed interim decision for two of the neonicotinoid insecticides (clothianidin and thiamethoxam).

The ID hasn't published yet, so this is what we have to look at. Julia, don't worry about reading this PID in full. But it may be helpful to review the "Proposed Risk Mitigation and Regulatory Rationale" section starting on page 50.
